

Michaud Equipment LTD. is currently looking for a

Drafting Technologist

Position Description - Drafting Technologist

Reports to - Engineering Project Manager

Summary of Position - The successful candidate will be responsible for developing and preparing drawings, ensuring all work conforms with specification and design data from the tables and libraries used in the Auto Desk software.

Core Competencies - the successful Candidate must display the following attributes as a core part of their interaction while working for the company.

- Needs to be on time for work
- Must conduct Himself / Herself with Best Safety Practices
- Takes direction well.
- Is able to work well alone or with others
- Allows minimal Non-Production Interruptions
- Works productively
- Produces Quality Work

Requirements for the Job and Work Environment – it is important that the successful candidate has developed a skill set through his / her education and / or work experience that allows them to be capable of performing Drafting tasks with a high degree of accuracy and quality within the work environment. Attributes we feel allow for this output are not limited too but are contained within the list below:

- Develop and prepare engineering designs and drawings from preliminary concepts, sketches, engineering calculations, specification sheets and other data
- Operate computer-assisted design (CAD) and drafting workstations
- Develop and prepare design sketches
- Develop BOM (bill of materials) for standard equipment

- Develop owner's manuals for standard equipment
- Develop parts books for standard equipment
- Complete documentation packages and produce drawing sets
- Check and verify design drawings to conform to specifications and design data
- Write technical reports
- Being Bilingual is an asset.
- Knowledge of Microsoft office products.
- Knowledge of Autodesk CAD products
- Understanding and comprehending of technical aspects of agriculture equipment
- Excellent oral and written communication skills
- Knowledge of nesting software such as Pronest and Cutlogic 1D

Educational / Work Experience - Education and work experience are both key in this role. Michaud is looking for a person who has completed a 2-year Drafting Technologist program. Work experience in the Drafting field will also be considered a valuable asset.

***** *Wage will be based on experience.***
